

Thinesh Rama

Junior Software Developer | AI Enthusiast | Full-Stack Developer

Diploma in Software Engineering graduate with hands-on experience in full-stack web development, artificial intelligence applications, and computer vision systems. Familiar with Python, JavaScript, React, Flask, SQL, and REST APIs, with experience developing real-world projects including an AI Scam Detector, Face Recognition Canteen Management System, and AI Student Portal CMS. Passionate about building innovative software solutions and seeking an opportunity as a Junior Software Developer

Projects

Face Recognition Canteen Management System

Python | Flask | OpenCV | DeepFace | SQLite

- Developed a facial recognition-based meal claim and attendance management system.
- Implemented duplicate meal claim prevention to avoid multiple claims on the same day.
- Integrated DeepFace and OpenCV for employee verification.
- Developed a real-time HR dashboard and reporting features.

AI Scam Detector

Python | Flask | JavaScript | SQL | Gemini API

- Developed an AI-powered web application to detect scam messages and phishing URLs..
- Implemented text and URL analysis using Large Language Models (LLMs).
- Designed an admin dashboard for monitoring.
- Developed REST APIs for frontend-backend communication.

AI Student Portal CMS

Python | Flask | SQL | REST APIs

- Developing an AI-powered student management portal for academic administration.
- Features include result management, fee management, timetable management, and event notifications.
- Integrating AI assistant functionality to support student queries.
- Applying full-stack development practices and database integration.

Education

Diploma in Software Engineering

Sentral Digital College Kuala Lumpur (SDCKL)
2024 – 2026

Sijil Pelajaran Malaysia (SPM)

SMK Gemas, Negeri Sembilan
Completed: 2024

Internship Experience

Software Engineering Intern

HeveaBoard Berhad

04 May 2026 - 26 July 2026

- Assisted in software development and testing activities
- Conducted API testing and validation using Postman.
- Participated in vulnerability assessments and code review processes.
- Assisted in debugging and troubleshooting web applications.
- Worked on software documentation and maintenance activities.

Technical Skills

Programming Languages

- Python
- JavaScript
- HTML5
- CSS3
- SQL

Frameworks & Libraries

- React.js
- Flask
- Tailwind CSS
- OpenCV
- DeepFace

Database

- MySQL
- SQLite

Tools & Platforms

- Git
- GitHub
- VS Code
- Cursor AI
- Postman
- Vercel

Concepts

- Full-Stack Development
- REST APIs
- Object-Oriented Programming (OOP)
- Machine Learning Basics
- Computer Vision
- Software Testing & Debugging

Achievements

- Final Year Project selected as People's Choice Project
- Developed multiple AI-powered and full-stack applications
- Built and deployed personal portfolio website and GitHub project repositories

Languages

- English
- Malay
- Tamil
